

The Cardinal Corner

Have you ever thought about who does it all when it comes to the public? Who gets the incoming phone calls? Who takes your temperature when the nurse isn't here? Who calls your parents? Who gives your parents information about the school? Meet Mrs. Miller, Western Harnett Middle school's receptionist. She used to work as a kindergarten teacher assistant and loves working with children.

As the receptionist Mrs. Miller can still work with students, parents, and teachers. She always greets those who enter the office with a smile on her face and a warm welcome.

Mrs. Miller loves to relax by watching her favorite movies on the couch. She also loves spending time with her grandchildren making scrapbooks and other crafts.

"Bringing the Good"

It takes more than just practice to be good at a sport. It takes teamwork. At Western Harnett Middle teamwork involves communication, helping each other, being reflective, confidence, and trust. After a game the Volleyball and Football teams talk about what they could have done differently. The Volleyball and Football teams talk about what they could have done differently and correct themselves on what they did wrong. Coaches encourage their players throughout the games, supporting their players 100%.

The Cardinal Corner

The Positives

Who are the Cardinals?

Western Harnett Middle School is home to a variety of students, with every student having a different personality. Hobbies of some students include softball, hanging out with friends, fishing, hunting, gymnastics, baseball, and football. Each student has their own individual personality with their hobbies often telling a story.

One hobby that everyone has is hanging with friends. Seventh grader Z. Breeding's favorite hobby is hanging out with her friends. When Breeding is stressed out, she and her friends will hang out and talk about how they feel. Their day gets better and they are able to "push" the stress behind them.

T. Ritsema's favorite hobby is gymnastics. When she is doing gymnastics it helps her get rid of all the stress. Her passion is to become one of the best gymnastics in the world. J. Black's favorite hobby is fishing. It helps her calm down. When she gets a fish on the hook she doesn't know what's going to happen next. An added benefit is spending time with her grandfather.

Being active helps students leave stress and worry behind them. The best thing about school is having a place to hang out with friends and still be active.

Kendall Yow

Soccer has just started on the soccer field. When I looked left and right, all that the eye could see was the crowd cheering their hearts out as they called their friend's name or number. The crowd was energetic and captivating that evening at WHMS.

When I looked more into the wonderful team spirit, all I could think about was "Wow, look at all the people cheering for their friends." I went to ask them about our team and why they cheer for their friends and the responses I got were inspiring.

"I think we're strong, solid, and very powerful."

"It's a pretty cool team and we are the best."

"I think we have a strong team and overall, I think we are pretty fast."

After I got those responses, I thought to myself...this isn't all about cheering for the team to be nice. It's about cheering for the people you love and the people who you support.

That is the pride you get for being a Cardinal in any sports game.
